Frequently Asked Questions

How long does this fundraiser take?

We are available to assist in setting your sale dates. A normal selling period is 2-3 weeks. The date the sellers should return their order and the delivery date are both printed on the forms. The delivery date is scheduled before your sale starts, usually 12-14 days after the order is submitted.

Is there a minimum order?

Yes, there are minimum orders for our programs based on location. Please refer to the fundraising information page on our website for your areas specific minimum order.

How does payment work?

There are no upfront costs to begin your sale. Payment for your order is not due until your sale has completed. Collect money as you sell and use a portion of this fund to purchase your product, the remaining balance will be the profit for your sale. One check payable to Kittelson Marketing is due at the time of delivery.

What should I expect at delivery?

Your delivery is set up to accommodate your group's schedule. Working with frozen products we do our best to deliver at a time when your sellers can pick up their orders to avoid having to find freezer space. Our representative will assist you in sorting and organizing your order as well.
