

What to Expect at Delivery - Orders Less Than 200 Units

Orders less than 200 units will arrive at the delivery packaged according to flavor. Each case contains 6 pastries of one flavor. There may be partial cases based on the order totals as well.

Your order will be arranged by flavor according to the order form. We will inventory the order when we arrive to ensure the correct amount has been delivered. We can assist you in sorting your order by each seller. You can expect it to take between 10 and 20 minutes to sort orders of less than 200 by individual seller.

Arrangement of a bulk order at delivery:

Tips:

- Reserve an area to set up that is easy for your sellers to find for pickup. Try to avoid any stairs and keep the location close to an access door. Your sellers will appreciate this!
- Having a long table, such as those found in a cafeteria, will make the sorting process much easier.
- Please allow for 30 minutes to unload and organize orders before any customers arrive for pickup. For orders this size, 1 - 2 volunteers will be plenty of help.
- Use the boxes that the product arrives in to sort the orders. Your representative will provide bags and extra boxes as well.
- Make arrangements to store any orders that are not picked up. Whether it is in a freezer at the delivery location, someone's home, or anywhere else that you may have access.
